Quantess Summer Seminar Part II

Welcome to Part II of our summer series!

As promised, we are excited to share with you Part II of our summer seminar series on **August 16th!**

Keywords: Blockchain, Data Science

We are delighted to welcome you to the second part of our summer series. The event will be held on Thursday **16th of August**. The theme of this seminar is exclusively on technology and finance by looking through two very intertwined evolutionary developments of our century. As many of you already know, we take networking as seriously as learning about new topics so please get to know each other over drinks and nibbles kindly provided by our event host.

The seminar will start with a presentation by Catherine Gu who is the founder of Quantess discussing "Blockchain: concept and vision". This will be followed by Sohee Park, Managing Director and Analytics & Data Science Strategist and Portfolio Manager for J.P. Morgan's Corporate & Investment Bank (CIB), to discuss "The Role of Data Analytics in Transforming Investment Banks". You can find out more about our speakers below.

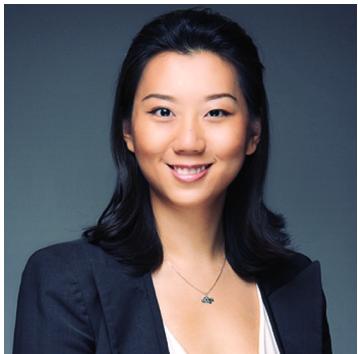

To ensure your attendance, please register for tickets early through our Eventbrite page. Tickets sale will close by noon Tuesday 14 August.

Please Note: the seminar will start from 6pm on Thursday 16th August at J.P. Morgan ([60 Victoria Embankment](#)). Admissions to the venue will close

at 6.30pm to ensure the event starts promptly.

Thank you for being part of Quantess! We look forward to having you join us.

Catherine Gu, Founder of Quantess London

Catherine is the founder of our group Quantess London. An economist cum data scientist, Catherine has held position as an investment research analyst at Man Group covering global macro systematic hedge fund managers for three years and then as a macro strategist at J.P. Morgan covering emerging market FX and rates. Catherine holds a Master in Economics from the University of Cambridge.

Catherine will be sharing her insights on some practical applications and concepts of blockchains as she is working with a fintech blockchain firm this summer. She will also invite the audience to together brainstorm the future of this technology. The session, "Blockchain: concept and vision", promises to be valuable to those with a causal interest in blockchain technology as well as those who are more proficient and work in the field.

Sohee Park, Managing Director at J.P. Morgan

Sohee Park is a Managing Director and Analytics & Data Science Strategist and Portfolio Manager for J.P. Morgan's Corporate & Investment Bank. In this role, she works closely with the Head of Analytics and Data Science to develop the CIB's Data Science strategy and is responsible for managing the data analytics project portfolio across businesses.

She also works closely with the firm's Finance & Business Management team and the Chief Data Office to resource initiatives to build data analytics capabilities in a well-controlled environment and with the CIB Fin Tech In-Residence team to develop and grow external partnerships. She will discuss "The Role of Data Analytics in Transforming Investment Banks".
